Libro Abierto

Libro Abierto es la colección de textos escolares orientada a impactar en la calidad de la educación dominicana. Para la elaboración de los contenidos de estos libros participaron las academias científicas, las instituciones educativas y las universidades nacionales. En estos centros se concentran los principales intelectuales del país cuyos talentos han sido puestos al servicio de la educación nacional.

La colección Libro Abierto tendrá dos presentaciones. Una impresa, integrada por dos series, y la otra digital. En la primera, se publicarán aquellos textos que se orientan al segundo ciclo del Nivel Inicial, los primeros tres grados de primaria y las áreas curriculares de primaria y secundaria: Ciencias Sociales, Lengua Española, Matemática y Ciencias de la Naturaleza.

En la presentación digital se publicarán los libros de texto de todas las áreas y los materiales que sirvieron de base para la educación a distancia durante la pandemia. Para ello, se dispone de una plataforma desde la cual, los estudiantes y docentes, podrán descargar dichos materiales y hacer uso de ellos libremente. Fortalecemos así la educación bajo la modalidad híbrida, impresa y digital.

Con esta colección Libro Abierto se impactará positivamente en la calidad de la educación y, además, los recursos disponibles en el presupuesto del MINERD se utilizarán de una manera más eficiente.

Estos libros constituyen un referente cualitativo en la historia de la educación dominicana y esperamos que los directores de centros, los docentes, los estudiantes y sus padres sean los críticos permanentes de los mismos y que sus opiniones ayuden a mejorarlos constantemente.

PROYECTO LIBRO ABIERTO

El Proyecto Libro Abierto es una iniciativa del **Ministerio de Educación de la República Dominicana, (MINERD)**, que busca el desarrollo de contenidos y recursos didácticos, a través de diferentes plataformas digitales e impresas, con la finalidad de ser utilizados en el proceso de enseñanza y aprendizaje de los estudiantes dominicanos.

A partir de esta importante invención, el Ministerio de Educación presta especial atención a la necesidad de distribución de estos recursos y contenidos didácticos a las diferentes escuelas y liceos que conforman el sistema público de educación de la República Dominicana.

El proyecto Libro Abierto se inspira en el concepto informático de desarrollo de códigos abiertos, en donde el recurso o contenido didáctico esté disponible a la población educativa, no sólo para su uso sino también, para su posterior aplicación de mejoras en su proceso de actualización, dando así a la República Dominicana un sistema de desarrollo de recursos y contenidos innovadores, a través del Ministerio de Educación, contribuyendo de forma directa y transversal al buen desarrollo del sistema educativo dominicano.

Learning New Vocabulary!

Exercise #1
Look at the new vocabulary words in the box. Four of these words are cognates; words that are almost the same in two different languages. Look at the four Spanish words below the box and match each Spanish word to one of the words from the box. You will NOT use all the words in the box yet.

Probably – Certainly – Absolutely – Possibly – Potentially – Likely – Unlikely – Happen

1) Posiblemente _____
2) Potencialmente _____
3) Absolutamente _____
4) Probablemente _____

Look at the four words you have not matched to a Spanish translation. These four remaining words match the four definitions below. Look for clues in the words to help you decide which word matches which translation. HINT: pay attention to prefixes & suffixes.

5) Por supuesto: _____
6) Probable: _____
7) Improbable: _____
8) Suceder: _____

Exercise #2
Look at the words in the box. All of these words express the probability that something will happen in the future. Below the box, there is a line graph from 0% (something that is impossible) to 100% (something that is definitely going to happen). Write all 7 of these words on the line graph where you think they go. Pay close attention to the order of the words, which words are more probable than others, which are less probable. Some words may go in the same place.

Probably – Certainly – Absolutely – Possibly – Potentially – Likely – Unlikely

0% 100%

Exercise #3
Read the following sentences. Decide if the sentence is TRUE or FALSE based on your family. If the sentence talks about a family member you don't have, cross it out and write in a new relation, then decide if the sentence is TRUE or FALSE talking about that person.

Posible situación en la que se puede utilizar lo aprendido:

Estás participando en un intercambio académico en un país de habla inglesa. La familia donde te estás hospedando va a tener que viajar a otra ciudad durante el fin de semana, y te pide cuidar a su mascota. Para poder hacerlo, es necesario comprender y saber seguir instrucciones.

Initial Self-Assessment

Complete the following table with an emoji based on your current knowledge.

(Completa la siguiente tabla con un emoticón, de acuerdo con tus conocimientos actuales.)

STATEMENT	 YES!	 SO-SO...	 NO
I can describe the personalities and actions of friends and family using new adjectives and adverbs. (Puedo describir la personalidad y acciones de amigos y miembros de mi familia usando adjetivos y adverbios.)			
I can use at least 3 linking words and commas to write with a clear structure and sequence. (Puedo usar al menos 3 conectores y comas para escribir con una estructura y secuencia claras.)			
I can answer questions to demonstrate specific understanding of a written letter of pet-care instructions. (Puedo responder preguntas para demostrar comprensión de instrucciones escritas para el cuidado de una mascota.)			

Giving and receiving instructions

Exercise #1

Look at the following words. Underline the words that are new for you.

(Observa las siguientes palabras y subraya las que son nuevas para ti.)

loving – aggressive – careful – reckless – quick – slow – quiet – loud

Each of these words describe something or someone. The flashcards for this unit all have pictures of an animal with one of these words that is associated with the animal. Look at the flash cards and think of 1-2 more examples.

Exercise #2

Fill in the blanks in each sentence with the two words provided.

(Completa las líneas en blanco de cada oración con las dos palabras provistas.)

Be careful: The FIRST word in each sentence is the word that does NOT describe the animal.
The SECOND word in each sentence is the word that does describe the animal.

A shark is not _____, it's _____.

loving
aggressive

A cat is not _____, it's _____.

careful
reckless

A rabbit is not _____, it's _____.

quick
slow

A rooster is not _____, it's _____.

quiet
loud

Exercise #3

Think of a person you know who you could describe with the following words. What are some specific things they do that lead you to describe them like that?

(Piensa en una persona que conoces a quien puedas describir con las siguientes palabras. ¿Cuáles son algunas cosas específicas que ellos hacen para que tú los puedas describir de esa forma?)

_____ is *loving* because _____.

_____ is *aggressive* because _____.

_____ is *careful* because _____.

_____ is *reckless* because _____.

_____ is *quick* because _____.

_____ is *slow* because _____.

_____ is *quiet* because _____.

_____ is *loud* because _____.

Giving and receiving instructions

We use the word **because** to give a reason why or an explanation.

Example: My mom is loving **because** she made me feel special on my birthday.

Exercise #4

Look at the following words. **Underline** the words that are new for you.

(Observa las siguientes palabras y subraya las que son nuevas para ti.)

lovingly – aggressively – carefully – recklessly – quickly – slowly – quietly – loudly

Exercise #5

The following two paragraphs are a mom's description of how her two young children get ready for school in the morning.

(En los dos párrafos siguientes una madre describe cómo sus dos hijos se preparan para ir a la escuela en la mañana.)

Brian is my older son, and he is 9 years old. In the morning, he walks quietly comes into the kitchen, eats his breakfast slowly, carefully washes his dishes, lovingly kisses me on the cheek, and then goes to get his backpack.

Devon is my younger son, and he is 3 years old. In the morning, he runs loudly into the kitchen, eats his breakfast quickly, recklessly throws his dishes in the sink, aggressively hugs me as tells me he loves me more than anyone in the world, then runs to his room to play with his dinosaurs.

a) Read each paragraph, and think about how you would describe each child's personality

(Lee los párrafos y completa las líneas en blanco con una palabra que tú crees describe la personalidad de cada niño.)

Brian is _____ Devon is _____

b) Go back to the two paragraphs and circle each of the words below:

(Vuelve a leer los dos párrafos y encierra en un círculo cada una de las siguientes palabras:)

quietly slowly carefully lovingly loudly quickly recklessly aggressively

c) Re-read each sentence with a circled word. What information does the word in the circle give us? What do those words describe?

(Vuelve a leer cada oración que tenga una palabra encerrada en un círculo. ¿Qué información nos dan las palabras encerradas en círculos? ¿Qué describen esas palabras?)

Giving and receiving instructions

Keep in Mind!

The words in the box of Exercise #4 (lovingly, aggressively, carefully, etc.) are adverbs.

Adverbs are descriptive words that describe how actions are done.

Adverbs are formed by adding **-ly** to the end of description words.

Exercise #6

Think of a person you know who does an action in one of the following ways. What are some specific things they do that lead you to describe them like that?

(Piensa en personas que conozcas que lleven a cabo acciones de alguna de las formas siguientes. ¿Cuáles son algunas cosas específicas que esas personas hacen de esa forma?)

lovingly – aggressively – carefully – recklessly – quickly – slowly – quietly – loudly

Reading Practice: Pet Care Instructions

Exercise #1

Pet Care Instructions for Mr. Snuggles!

Hi Monica!

Thank you so much for taking care of my cat, Mr. Snuggles, while I'm on vacation this weekend. You are such a great friend, and I know you will watch him very lovingly. Please read these instructions very carefully. Mr. Snuggles is VERY picky, and if he doesn't have things exactly the way he prefers, he acts... aggressively.

The three things Mr. Snuggles needs are food, water, and love! First, to feed him, take his food out of the fridge very quickly. Mr. Snuggles likes to eat his food while it's cold. Also, don't put the food in his red bowl recklessly because he hates a mess! He eats very cleanly, so if there is food on the floor he won't eat. Next, clean his blue bowl carefully, then fill it with water. After that, sing to him quietly! Mr. Snuggles will start to meow quietly. Keep singing, but slowly, sing more and more loudly. Finally, he will start to meow loudly. Give him his water, and then say, "For Mr. Snuggles, prince of the house, most beautiful cat in the world!" before you leave the house.

What can I say? Mr. Snuggles is a crazy cat. Thank you again for taking care of him this week! When I'm back, on Monday, you can come over and hear about my trip.

Big hugs,

Carol

Exercise #3

Read the text and answer the following questions:

(Lee el texto y responde las siguientes preguntas:)

- A) This is a letter from _____ to _____ .
- B) This letter is a set of instructions explaining
- a) how a man feeds his dog b) how to take care of a cat c) how to buy your first pet

Exercise #4

Read the text again, and write the word "before" or "after" in the blanks below to show the order of the instructions:

(Lee el texto de nuevo y escribe la palabra "before" o "after" en los espacios en blanco para mostrar el orden de las instrucciones:)

- A) Take the food out of the fridge _____ you put the food in the bowl carefully.
- B) Fill the blue bowl with water _____ you clean the blue bowl.
- C) Sing loudly _____ you sing quietly.
- D) tell the cat he is beautiful _____ you feed him.

Giving and receiving instructions

Exercise #5

Read the text again and complete the following exercise. Circle true or false. If the answer is false, write the correct information.

(Lee el texto de nuevo y completa el siguiente ejercicio. Encierra en un círculo **true o false**. Si la respuesta es **false**, escribe la información correcta en la línea en blanco.)

True or False? Carol is going on vacation for two weeks.

_____.

True or False? Mr. Snuggles is a very picky cat.

_____.

True or False? Mr. Snuggles likes to eat his food if it is hot.

_____.

True or False? Mr. Snuggles doesn't make a mess.

_____.

True or False? Sing to Mr. Snuggles quietly first, then more loudly after.

_____.

True or False? Mr. Snuggles is the "king" of the house.

_____.

Exercise #6

Read the following scenario, then complete the task explained.

(Lee la siguiente situación, luego haz el ejercicio.)

Imagine that you live in the United States and are going on a trip to Europe for two weeks. Think of a friend who you can ask to help take care of your responsibilities while you are away. Write 3-4 instructions telling them what to do while you are away. Remember, this is a letter asking for help, so try to write with a nice and thankful tone.

Giving and receiving instructions

Practicing Grammar!

Exercise #1

One reason we use commas in a sentence is to separate extra information, like adding a name or a specific date. A comma is added before and after the extra information. For example:

Thank you so much for taking care of my cat, Mr. Snuggles, while I'm on vacation this weekend.

When I'm back, on Monday, you can come over and hear about my trip.

Add two commas to each of the following two examples to separate the extra information:

Tip: Try covering the words you want to put in commas and reading the sentence. If it sounds good without those words, they are the extra information.

(Agrega dos comas a cada una de las siguientes oraciones para separar la información adicional:

Sugerencia: Intenta cubrir las palabras que quieres encerrar entre dos comas y lee la oración. Si suena bien sin esas palabras, entonces son información adicional).

a) My mother Julie is the most loving person I know.

b) This Friday on his birthday Jim won't be coming in to work.

Exercise #2

Another reason we use commas in a sentence is to connect two separate sentences that are connected in topic. Consider these 2 ideas:

You are such a great friend. I know you will watch him very lovingly.

Each of these sentences has a different subject, "You" and "I", but the second sentence gives a reason for the statement in the first sentence. So, they can be connected by adding a *comma* and the word "and":

You are such a great friend, and I know you will watch him very lovingly.

Mr. Snuggles is very picky, and if he doesn't have things exactly the way he prefers, he acts aggressively.

Add a comma to each of the following examples to show the division of two sentences:

Tip: Try reading just one part of the sentence before OR after the comma you add. It should be a full sentence.

(Agrega una coma a las siguientes oraciones para mostrar la separación de las dos partes que las conforman.

Sugerencia: Intenta leer sólo una parte de la oración antes O después de la coma que agregues. Lo que lees debería una oración completa.)

a) Daniela is an amazing woman and Eric needs to treat her the way she deserves.

b) Jorge is my cousin and on Friday we're going to watch a movie together.

Exercise #3

Commas are also used for lists of three or more people, animals, places, things, or actions. To write a list of three or more, separate each object with a comma and add the word "and":

The three things Mr. Snuggles needs are food, water, and love!

Next, clean his blue bowl carefully, then fill it with water, and after that sing to him quietly!

Giving and receiving instructions

Add commas to each of the following examples to separate each object in a list of three:

(Agrega comas a las siguientes oraciones para separar los tres elementos de la lista que se incluye en cada una:)

a) I have dance practice on Monday Wednesday Thursday and Friday this week.

b) They are planning to go to Aruba Barbados St. Vincent and Haiti on their vacation.

Exercise #4

Word Search! Look up the following **bold** words in a translator app on your phone or on the free translator located at <https://translate.google.com>.

(Busca las siguientes palabras en una aplicación de traducir en tu móvil o en el traductor <https://translate.google.com>)

first – also – next – then – after that – before – finally

Exercise #5

(The following paragraph is from the letter you just read in the reading section of this unit.)

(El siguiente párrafo es de la carta que leíste en la sección de lectura de esta Unidad.)

Read the paragraph again and underline the linking words in the box above. Where are those words in each sentence? What punctuation marks do they use?

(Lee el párrafo de nuevo y subraya los conectores del Ejercicio #4 que aparecen en dicho párrafo. ¿Dónde están esos conectores en cada oración? ¿Qué signo de puntuación tienen?)

The three things Mr. Snuggles needs are food, water, and love! First, take his food out of the fridge very quickly. Mr. Snuggles likes to eat his food while it's cold. Also, don't put the food in his red bowl recklessly because he hates a mess! He eats very cleanly, so if there is food on the floor he won't eat. Next, clean his blue bowl carefully, then fill it with water. After that, sing to him quietly! Mr. Snuggles will start to meow quietly. Keep singing, but slowly, sing more and more loudly. Finally, he will start to meow loudly. Give him his water, and then say, "For Mr. Snuggles, prince of the house, most beautiful cat in the world!" before you leave the house.

When adding one of these linking words at the beginning of a sentence, separate it with a comma:

First, take his food out of the fridge very quickly.

Also, don't put the food in his red bowl recklessly because he hates a mess.

Giving and receiving instructions

Exercise #6

Think about what you do in the morning to get ready. How could you use these linking words to establish a clear order? Write your morning routine below, using 3-5 of the bold linking words below.

(Piensa en lo que haces en las mañanas para alistarte. ¿Cómo podrías usar estos conectores para establecer un orden claro? Escribe tu rutina, usando 3-5 de los conectares en el recuadro.)

first – also – next – then – after that – before – finally

Final Self-Assessment

Complete the following table with an emoji based on your current knowledge.

(Completa la siguiente tabla con un emoticón, de acuerdo a lo que ahora sabes.)

Learning Portfolio

Think of something you are an expert at: a food you know how to cook well, a talent or special skill you have, something you do better than everyone you know. Write out detailed instructions about how you do that so amazingly. Be very specific and precise, telling people just how slowly to stir the pot or how loudly to sing the song. You can also include a visual or a link to a website with more information.

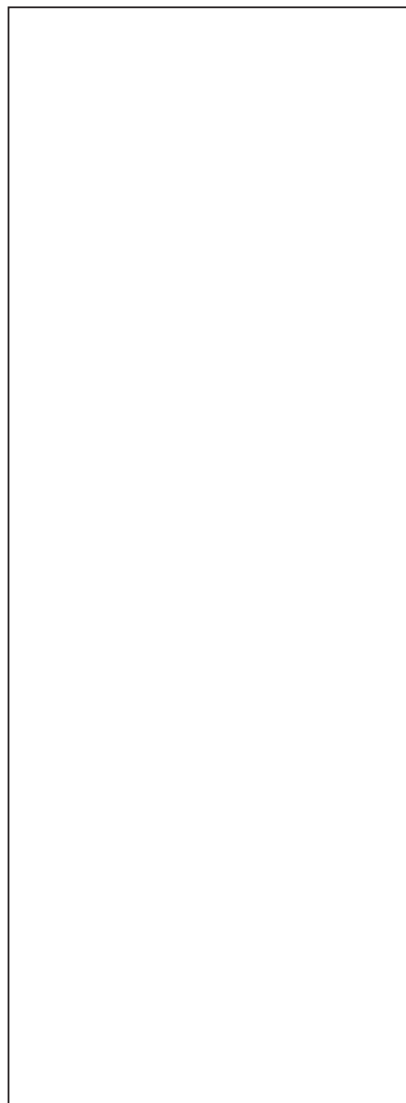

(Piensa en algo en lo que eres experto: una comida que sepas preparar, un talento o habilidad especial que tengas o algo que hagas mejor que las personas que conoces. 3 Tips for University Success: Advice from a Recent Graduate

Hey everyone, Maggie here with another vlog. Today, I want to talk to all the students out there getting ready to graduate high school about my three tips for preparing for university.

My first piece of advice is that you should study something you enjoy. Think about what you are good at, and then talk to your counselors and professors about what you can study that suits your personal abilities. I'm terrible at science, but I always loved exercise. I talked to my counselor, and she told me I should take a physiology class. Now, I'm planning on becoming a physical therapist.

My second piece of advice is about where to live. Living on your own and being independent can be really exciting, but moving to a new town can also be really scary. I think you should rent an apartment with friends or classmates. You can save money by sharing an apartment. Plus, it's so nice to have a group of friends to explore a new city!

My third and last piece of advice: slow down and be present! It is so easy to overthink the future and forget to enjoy your present. Life can feel crazy right now with everything about to change. People talk about buying a house or a car and I feel like I'm behind them in the race of life. But then I remember that this life is my blessing, and my chance to chase my dreams, so I'm taking my own advice! Before I start my career, I'm going to see the world.

Well, congratulations to everyone about to graduate, I'm super proud of you, and I hope to see you out there adventuring. That does it for today's vlog. Like and subscribe below to help the channel, and until new time. You be you!

- 3) Absolutamente : _____
- 4) Probablemente : _____

Look at the four words have you not matched to a Spanish translation. These four remaining words match the four definitions below. Look for clues in the words to help you decide which word matches which translation. HINT: pay attention to prefixes & suffixes.

- 5) Por supuesto: _____
- 6) Probable: _____
- 7) Improbable: _____
- 8) Suceder: _____

Exercise #2

Look at the words in the box. All of these words express the probability that something will happen in the future. Below the box, there is a line graph from 0% (something that is impossible) to 100% (something that is definitely going to happen). Write all 7 of these words on the line graph where you think they go. Pay close attention to the order of the words. Which words are more probable than others, which are less probable. Some words may go in the same place.

Probably – Certainly – Absolutely – Possibly – Potentially – Likely – Unlikely

Exercise 3

Read the following sentences. Decide if the sentence is TRUE or FALSE based on your family. If the sentence talks about a family member you don't have, cross it out and write in a new relation, then decide if the sentence is TRUE or FALSE talking about that person.

Making predictions and announcements

This weekend...

- 1) ...my mother will probably go on a walk. _____
- 2) ...my father will certainly cook dinner. _____
- 3) ...my brother will absolutely watch television. _____
- 4) ...my sister will possibly play soccer. _____
- 5) ...my grandma will potentially visit our house. _____
- 6) ...my grandfather will likely work in the garden. _____
- 7) ... It is unlikely my uncle will visit. _____
- 8) ...a birthday party is going to happen at my house. _____

Exercise 4

Think about what you think will happen this weekend. In each of the 7 boxes below, write 2-3 ideas of things that might happen according to the probability word in the box.

<u>Probably</u>	<u>Certainly</u>	<u>Absolutely</u>	<u>Possibly</u>
<u>Potentially</u>	<u>Likely</u>	<u>Unlikely</u>	

Making predictions and announcements

Practicing Grammar!

Exercise #1

Read the sentences below and underline the adverb. HINT: the adverb usually ends in -ly.

1. He probably has a computer.
2. She possibly can come to the party.
3. They certainly know each other.
4. We absolutely need to leave.

Where does the adverb go in these sentences?

Exercise #2

Read the sentences below and underline the adverb. HINT: the adverb usually ends in -ly.

1. He will probably take the bus.
2. We will absolutely drive her car.
3. They are likely going to walk.
4. She is potentially going to call a taxi.

Where does the adverb go in the sentence? see if you can notice a pattern between examples 1& 2 and another pattern between examples 3&4.

Keep in mind!

When using an adverb to describe how likely an action is, the adverb goes BEFORE the main action.

SUBJECT + ADVERB + ACTION

He + probably + eats tuna

However, the adverb always comes AFTER the verb "to be".

SUBJECT + TO BE + ADVERB + DESCRIPTION

He + is + probably + her husband.

Making predictions and announcements

When using “going to” to talk about the future,
the adverb goes BETWEEN the verb ‘to be’ verb and “going”

SUBJECT + TO BE + ADVERB + GOING TO + ACTION

You + are + definitely + going to + learn this.

When using “will” to talk about the future, the adverb goes BETWEEN the verb ‘will’ and the action verb

SUBJECT + WILL + ADVERB + ACTION

You + will + definitely + learn this

Exercise #3

Look at the formulas on the previous page for how to use these ADVERBS in a sentence. Then write a sentence with each of the 7 adverbs that are in the box below.

Probably – Certainly – Absolutely – Possibly – Potentially – Likely – Unlikely

- 1) _____
- 2) _____
- 3) _____
- 4) _____
- 5) _____
- 6) _____
- 7) _____

Exercise #4

Read the sentences below and underline the word “not”.

1. He will probably not take the bus.
2. She will certainly not drive her car.
3. They are absolutely not going to walk.
4. We are likely not going to call a taxi.

Where does the word “not” go to negate the action? See if you notice a pattern.

Making predictions and announcements

If you want to negate an adverb or probability when talking about the future,, add the word “not” right AFTER the adverb.

They will certainly NOT leave class early.

I am absolutely not going to call her first.

Exercise #5

Choose two sentences you wrote in Exercise #3 and negate them with the word “not”.

1) _____

2) _____

Juan Bautista Alfonseca Artistic High School: November Newsletter

Hi everyone! Lisa here, your Senior Editor at the student newspaper. I'd like to share with you the exciting news, juicy gossip, and hot rumors that have everyone at our school talking.

Making predictions and announcements

First, I want to share confirmed news of something that is absolutely going to happen this year at JBAHS. We are super excited that the school is going to get an athletic bus so that our amazing sports teams can travel to other schools. This is certainly good news for our regional champion men's and women's soccer teams, as well as the women's softball team.

Next up, a rumor (confirmed by an anonymous source) of something that will potentially happen this year. An unnamed teacher has said that the school will possibly begin offering classes in web design. This is probably why we have seen so many electrical trucks going to the new building construction site.

Finally, some fast gossip: LIKELY: lots of soccer team victories UNLIKELY: The science department stops the difficult pop-quizzes LIKELY: the spring art show will have lots of competition UNLIKELY: the students of the art department will be allowed to repaint the school.

Thanks so much for reading! If you have hot gossip, you know where to find me. And as always, GO FALCONS!

Reading Practice: The Missing Tuna Sandwich

Exercise #1

What school rules are broken most often at your school?

Exercise #2

Have you ever been blamed for something when you were innocent? What did you do?

Blame - verb - To give responsibility to; to accuse someone of something (usually) bad.

Read the following text and complete the exercise below.

(You can find the audio file for this reading here: www.bit.ly/SEC4_AUDIO_04)

We were sitting in 4th period English class all minding our own business when our teacher, Ms. Suarez, said, "Now, everyone behave. I need to use the restroom."

Now, let me tell you, I don't know what exactly happened next. I took out my headphones and was listening to loud music when... *it* happened.

When Ms. Suarez came back into the classroom, not even my headphones could stop me from hearing, "Class, attention!"

"Someone has stolen my tuna sandwich while I went to the bathroom," Ms. Suarez yelled. "What was each of you doing while I stepped outside?"

"I was studying for the quiz when the sandwich disappeared," Diego answered.

"I was doing my homework when the sandwich disappeared," Elena whispered.

"Sorry teacher, I was sleeping when the sandwich disappeared," Alberto laughed.

"We were practicing the roleplay when the sandwich disappeared," Sebastian and Tania sang.

"But I'm so hungry!" Cried Ms. Suarez. "Who took my Tuna sandwich?"

Talking about experiences

Then, she looked straight at ME and said, “David, you are awfully quiet. What were YOU doing?”

I didn’t know what to say. Using headphones is against the class rules, but I hate tuna. Should I tell her the truth and get in trouble anyway? Do I lie and make myself look guilty?

Everyone was looking around silently waiting for me to speak when we all heard, “MEOW!”

Exercise #3

Read the text and answer the following questions:

A) What is the main problem in the story?

B) Who is the victim in the story?

Exercise #4

Read each sentence and decide if it is the same as the student’s explanation in the text. If it is the same, write “correct” on the line below. If it is not correct, change the sentence to match the text.

1) “I was doing my homework when the sandwich disappeared,” Diego answered.

2) “I was sleeping when the sandwich disappeared,” Elena whispered.

3) “Sorry teacher, I was studying for the quiz when the sandwich disappeared,” Alberto laughed.

4) “We were practicing the roleplay when the sandwich disappeared,” Sebastian and Tania sang.

Talking about experiences

Exercise #5

Read the text and answer the following questions:

What is the explanation for how the tuna sandwich disappeared?

How do you know this? What words from the reading help you know the answer?

Exercise #6

Write a story about a time when you got in trouble when you were younger. It can be a story of when you were blamed but were innocent, or when you did something and had to face the consequences.

Talking about experiences

Exercise #1

Re-read the following dialogue about students giving their teacher reasons why they didn't steal her sandwich. Underline what each student's explanation is.

"Class, attention!" Ms. Suarez, the English teacher yelled. "Someone has stolen my tuna sandwich while I went to the bathroom. What was each of you doing while I stepped outside?"

"I was studying for the quiz when the sandwich disappeared," Diego answered.

"I was doing my homework when the sandwich disappeared," Elena whispered.

"Sorry teacher, I was sleeping when the sandwich disappeared," Alberto laughed.

"We were practicing the roleplay when the sandwich disappeared," Sebastian and Tania sang.

"But I'm so hungry!" Cried Ms. Suarez. "Who took my Tuna sandwich?"

Everyone was looking around silently when they heard, "MEOW!"

Each student's excuse is that they are busy doing something in the moment the sandwich disappeared. Their excuses each have three parts:

<u>Continuous Action</u>		<u>Linking Word</u>		<u>Single Moment</u>
I was studying for the quiz	+	when	+	the sandwich disappeared .
I was doing my homework	+	when	+	the sandwich disappeared .
Sorry teacher, I was sleeping	+	when	+	the sandwich disappeared .
We were practicing the roleplay	+	when	+	the sandwich disappeared .

To do this yourself, follow these guidelines:

<u>Past Progressive</u>		<u>Linking word</u>		<u>Simple Past</u>
I/He/She + was + (action)ing	+	when/while/as	+	(event in the simple past tense)
You/We/They + were + (action)ing	+	when/while/as	+	(event in the simple past tense)

Here are some examples:

We were laughing when she spilled her coffee everywhere.

He was asking her to marry him when her phone rang.

The cellphone was charging when he stepped on it.

They were just starting to be friends when moved away.

Exercise #2

Use the formula from the previous page and the information from the boxes below to write a single sentence. The first sentence is completed so you can see an example.

2. _____

Continuous Action	Momentary Action

3. _____

4. _____

Exercise #3

Re-read the dialogue on the previous page, then write down four more explanations below for four more students you imagine. Use the four explanations from the dialogue as a model.

1. _____

2. _____

3. _____

4. _____

How would you describe the first paragraph?

How would you describe the second paragraph?

How would you describe the third paragraph?

How are these three paragraphs different?

Explaining problems and reasons

To join sentences together you can use a connecting word like “and”, “but”, or “because.”

“**and**” is used to connect two related ideas.

I want to move to the city. I want to attend university.
(both are desires for the future)

*I want to move to the city **and** attend university.*

“**but**” is used to connect two contrasting ideas. Ideas contrast when they present information that contradicts, disagrees, or changes.

He thought it was too much money ... he told me he understood.
(First the dad doesn't understand, **but** then he does.)

*He thought it was too much money, **but** when I reminded him how expensive the tools in his workshop are he told me he understood.*

“**because**” is used to connect cause to effect. This can also be thought of as a reason why.

I want to attend university. I want to become a graphic designer.
(becoming a graphic designer is the reason WHY she wants to attend university)

*I want to attend university **because** I want to become a graphic designer.*

I am going to save the money I earn. I need to buy a computer for school.
(needing a computer is the cause for her plan to save money)

*I am going to save the money I earn **because** I need to buy a computer for school.*

Exercise #2

Use one of the linking words “and”, “but”, or “because” to join two phrases into one complete sentence. Write the sentence on the line below.

Hint: think about the connection between the two phrases. Is it two related ideas, two contrasting ideas, or cause & effect?

1. (I want to put on a jacket) (it is cold)

2. (She is late) (he is late too)

3. (My friend invited me to go the movies) (I am sick)

What is Causing Pollution & How We Can Stop It

Pollution is the damaging of our natural environment by external substances introduced directly or indirectly. Human health, ecosystem quality and the biodiversity of both the land and the ocean are being affected and permanently damaged by pollution. We are losing our natural resources and our home because we keep polluting our planet.

When ecosystems cannot eliminate these harmful substances that are introduced into the environment, they become polluted. The ecosystem then becomes unstable because lots of pollution makes it impossible for future pollution to be eliminated.

Some of the main causes of environmental disasters and pollution are the result of human activity. Events such as oil spills, chemical spills, nuclear accidents, and trash dumping have caused damage to many different Environments. The consequences of these disasters are tragic: biodiversity is destroyed, humans and animals die, natural habitats are destroyed, land, water and air are all damaged.

We have to prevent pollution and protect our environment. We need to consider the safety and health of our planet always in everything we do. Already, change is beginning. Many endangered species are recovering because of the efforts of conservationists. Areas where pollution has damaged the environment are being cleaned and rehabilitated because people have seen the damage they are causing. New pollution is lessening, because governments are creating laws that prevent and punish pollution. Together, we can make a difference. We have to try to save our earth, because it is the only home we have.

Learning Portfolio

One of the great strengths of a healthy democracy is that it creates a space for a society to come together and combine their perspectives, values, and beliefs into a collective vision.

Think about the world from your perspective. What are some of the most important problems that you believe your community and society need to focus on?

Choose the five ideas that are the most important to you right now. For each, make a statement about why you believe each problem is important, or what you believe is causing that problem. Use powerful and specific language that is informative and persuasive.
